EFFECTIVE 2010 - 2015

Why raise Water & Sewer Rates?

Critical infrastructure improvements to the City's Water Treatment Plant, Wastewater Treatment Facilities and the Distribution Networks are necessary to support existing and future growth, to replace old and deteriorating equipment, to improve process technology and efficiency and to meet changes in environmental regulatory requirements.

The rate increases are required to support these Capital Improvements, which are approximately \$65 million in sanitary sewer improvements and \$8 million in water system improvements.

Changes to the Sanitary Sewer Lateral Insurance Program

The sewer lateral fee for 2011 (*which is charged on the 2010 fall billing from the St. Charles County Collector of Revenue*) will be reduced from \$28 to \$20 and the current individual maximum reimbursement amount will be raised from \$5,000 to \$7,500. For more information about this program, please call (636) 949-3237.

What are the new Water & Sewer Rates?

Water Rates

Bi-Monthly and Per 1000 Gallon

	July 1 2010	Jan. 1 2011	Jan. 1 2012	Jan. 1 2013	Jan. 1 2014	Jan. 1 2015
